

A Great Leap for Intestinal Research: 20 YEARS AND BEYOND

Curriculum Vitae

Personal Information	
Title (i.e. Pf., Dr., etc.)	Associate Prof.
Name (First name Middle name Last name)	Jianguang Ji
Degree (i.e. MD, Msc, PhD, etc.)	MD. PhD
Country	Sweden
Affiliation	Lund University
	
Educational Background	
2005-2008 Ph.D with Grade "Summa Cum Laude", School of Medicine, University of Heidelberg, Germany; Title "Survival in Common Cancers Is Familial, Suggesting Heritable Causation"; Supervisor: Kari Hemminki 1997-2000 Master of Public Health, Chinese Academy of Preventive Medicine, China 1992-1997 MD, Zhangjiakou Medical College, China	
Professional Experience	
Dr. Jianguang Ji has a strong focus on the influence of genetic and environmental factors on cancer incidence and mortality. He has used data from nationwide registers and national and regional surveys to shed new light on potential genetic and environmental factors associated with the development of various types of cancer. Results from his research studies can be found in highly ranked journals, such as The Lancet Oncology, J National Cancer Inst, Gastroenterology, and J Clin Oncol, et al. Recently, his research has a focus on chemoprevention of colorectal cancer by utilizing Nationwide real-life clinical data in Sweden. He has identified a couple of agents that might be repurposed against colorectal cancer.	
Professional Organizations	
Member of the European Association for Cancer Research	

IMKASID 2022

COMMEMORATING THE 20th ANNIVERSARY OF KASID

THE 5th INTERNATIONAL MEETING ON INTESTINAL DISEASES IN CONJUNCTION WITH
THE ANNUAL CONGRESS OF THE KOREAN ASSOCIATION FOR THE STUDY OF INTESTINAL DISEASES

MAY 12 THU - **14** SAT, 2022 / **BEXCO, Busan** **IN PERSON & VIRTUAL EVENT** ▶▶
